

Backpack ADU

Portable AI security. Real time monitoring. Fast deployment.

Reliable protection where you need it most.

The OnView Backpack ADU™ is a compact, portable security solution designed for locations that need fast, flexible protection. It can be installed on light poles, walls, fences, rooftops, temporary structures, or OnView security poles with minimal disruption.

Connected to OnView's Live Surveillance Monitoring team for real time review, verification, and response.

Key capabilities

- ✦ **Fast, flexible deployment**
Installs quickly on poles, walls, fences, rooftops, temporary structures, or OnView security poles.
- ✦ **AI powered detection**
Identifies activity such as people, vehicles, loitering, trespassing, and perimeter breaches.
- ✦ **Live remote monitoring**
Connected to OnView's Live Surveillance Monitoring team for real time review, verification, and response.
- ✦ **Active audio and visual deterrence**
Supports live talk down, warning messages, lights, alarms, and other deterrent tools.
- ✦ **Solar or wired power options**
Choose off-grid solar power or 110V power based on the property and deployment needs.
- ✦ **Custom camera configurations**
Available with fixed cameras, PTZ, wide-view, thermal, license plate recognition, and long-range options.

How it works

- 1 Detect**
AI powered cameras identify activity such as trespassing, loitering, perimeter breaches, and unauthorized vehicles.
- 2 Verify**
OnView's Live Surveillance Monitoring team reviews activity in real time to help reduce false alarms and confirm threats.
- 3 Deter and respond**
Operators can issue live audio warnings, activate deterrent tools, and escalate incidents based on site protocols.

A simple process built to detect suspicious activity, verify threats, and deter intruders before incidents escalate.

Ideal applications

Construction sites

Help protect equipment, materials, and active work zones.

Commercial properties

Support after hours protection and perimeter awareness.

Parking lots and yards

Monitor vehicles, assets, and open areas.

Utilities and infrastructure

Secure remote, high risk, or hard to monitor locations.

Vacant properties

Add visible security where activity often goes unnoticed.

Protect more, respond faster

- ♦ **Fast installation**
- ♦ **Portable and easy to relocate**
- ♦ **Lower cost than on site guards**
- ♦ **Real time threat detection**
- ♦ **Live audio intervention**
- ♦ **Solar and wired power options**
- ♦ **Built for temporary or long-term use**

Why OnView

OnView combines AI powered security technology, trained remote operators, live audio deterrence, and real time escalation to help prevent incidents before they become costly losses. From installation to monitoring, our team provides a complete security solution built around your property's needs.

Need flexible security without permanent construction?

Schedule a site review to see how the OnView Backpack ADU™ can help protect your property.
