

Mobile Surveillance Trailers

Non-stop surveillance. Real-time protection. Smarter security.

Deploy proactive security wherever risk moves

Get real-time detection, active security measures, and skilled monitoring for short-term, remote, or high-risk areas; no need to wait for permanent systems.

OnView Mobile Surveillance Trailers provide an effective, rapidly deployable security option, powered by AI-driven detection technology and trained monitoring experts. Each unit is flexible, able to be placed strategically, moved when conditions demand, and adjusted to match the unique risks of the location.

Reliable security. Anywhere, anytime.

Rapid deployment

Easily deployable for temporary projects, critical needs, or events where traditional cameras or power aren't feasible.

Active deterrence

Features cameras, lights, strobes, and speakers to create a clear security presence, with staff issuing live alerts as needed.

Flexible power and connectivity

Hybrid solar, AC, battery, and LTE setup ensures consistent operation with remote diagnostics for reliability, safety requirements.

From detection to intervention

1 Detect

AI detects people, vehicles, boundary breaches, and unusual behavior while reducing false alerts.

2 Prevent

OnView's team verifies activity and intervenes using live warnings, speakers, lights, or announcements.

3 Respond

OnView dispatches a On-Demand Guard Response or follows your response protocol.

Detection is only the beginning. OnView verifies activity and takes action in real time.
